

REMARKS

Applicants note that this Response is filed in addition to requesting entry of the Amendment and Remarks submitted on August 2, 2010.

Applicants wish to note that contrary to the indication on the Interview Summary, Applicants did not assert during the personal Interview that “the reaction is between any ethylenically unsaturated monomer and the ethylenically unsaturated monomer YBX.” In the presently claimed invention, additional monomers (additional to YBX) are not required. However, the present claim language of “comprising” does not exclude their presence.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account.

Respectfully submitted,

/ Travis B. Ribar /
